Education

FaMAF - UNC (National University of Cordoba)

Córdoba, Argentina

UNDERGRADUATE STUDENT IN COMPUTER SCIENCE

Mar. 2016 - Present

- Average grade : 8.4
- Analyst taken subjects (intermediate title) : 17/18
- Bachelor taken subjects : 17/28

Skills

Mobile Development	Swift • Objective C • Java
Data Science	Python • Keras • OpenCV • Pytorch • Numpy • Pandas
Database	MySQL • SQLite • RealmDB • Mongo
General	C/C++ • BASH • Vim script • Javascript • Java • Ruby • Kotlin
Frameworks	UIKit • Android • ReactJS • Grails • jQuery
Tools	git • Jira • XCode • Jupyter Lab
Languages	(Native/Fluent) : Spanish • English • French • (Basic) : Italian

Experience

IncluIT / SimTLIX

Córdoba, Argentina

SOFTWARE DEVELOPER

Jun. 2019 - Present

- Developer for Pulse Secure client, a VPN provider. The project aimed to migrate the application from Kernel Extensions to System Extensions, using C++ and Objective C.
- Carried out a computer vision project to perform real-time person segmentation on mobile devices. Used Keras, Tensorflow Lite and OnnxRuntime.
- Avaya IX Workplace developer, an app based in communications (messaging, conferencing and calendar integration). Worked on mobile and desktop applications for MacOS and iOS, both native.
- Mobile developer (Native Android and iOS) for a health insurance company called Jerárquicos. Worked on applications based on establishing communication between patients and doctors, along with providing an easy interface of payment.
- iOS developer for the Telecom Personal App, a telecommunications company.

Globant

Córdoba, Argentina

IOS DEVELOPER

Feb. 2019 - Jun. 2019

- Worked on the Royal Caribbean mobile app. Learned about the best practices for coding in Swift, including:
 - Model View Presenter Architecture
 - Clean Code Architecture
 - Design Patterns

JCOR

Córdoba, Argentina

FULL STACK DEVELOPER

Jun. 2018 - Feb. 2019

- Worked for the Taaxii corporate app, based on providing the companies transportation for their employees. In charge of different tasks, including:
 - Back-end development with Java, using MySQL database
 - Mobile development (Native Android and iOS)
 - Automation tests using Appium and Selenium
- Web developer for JCOR's own product using Grails framework

AVH Club AR (Alexander von Humboldt Foundation Alumni Association)

Córdoba, Argentina

WEB DEVELOPER

Jun. 2017 - Jun. 2018

- Development and deployment using PHP and MySQL of a web page which included:
 - Admin page to upload Blog entries, News and Image Slides
 - Campaigns mail automation using MailChimp

Extracurricular Activity

PyData

VOLUNTEER

Córdoba, Argentina

2018 and 2019 editions

- Helped the Committee on different organizational tasks.

Conference on Computer Science (JCC)

Rosario, Argentina.

SCHOLAR

Oct. 25-27, 2017

- Received a scholarship to participate in the Conference in Computer Science at the National University of Rosario, Rosario, Argentina.

Argentinian Programming Contest (TAP)

FaMAF, Córdoba, Argentina.

PARTICIPANT

2017

- Participation in the Argentinian Programming Contest, based on resolving a series of mathematical and algorithmic problems using programming skills.

Github

[HTTPS://GITHUB.COM/RUSITO-23](https://github.com/RUSITO-23)

- Worked on several personal projects and contributed to external projects, including:
 - 2D games using Pygames with Python
 - Mobile applications
 - Dotfiles
 - University projects
 - Web development
 - Data science projects, using Keras and Pytorch
 - Contribution to Keras Segmentation Models Collection

Stack overflow

[HTTPS://STACKOVERFLOW.COM/STORY/IGOR-ANDRUSKIEWITSCH](https://stackoverflow.com/story/igor-andruskiewitsch)

- Member of the Stack Overflow community since 2017.
- Collaborating on issues such as:
 - Mobile development
 - Keras
 - Machine learning integration in Mobile apps
