Education

Computer Science

Córdoba, Argentina

FAMAF - UNC (NATIONAL UNIVERSITY OF CORDOBA)

Mar. 2016 - Present

- Analista en Computación (equivalent to Computer Science Bachelor)
 - GPA: 8.4 (10 scale) • Taken subjects: 17/18 • Expected graduation date: July 2021
- Licenciatura en Ciencias de la Computación (equivalent to Computer Science Mst.)
 - GPA: 8.4 (10 scale) • Taken subjects: 17/28 • Expected graduation date: January 2023
- Taken Subjects Highlights:
 - Data Structures & Algorithms • Neural Networks • Probability and Statistics • Numerical Analysis • Software Engineering

Skills

Mobile Development

• Swift • Objective C • UIKit • Tensorflow Lite • CoreML

Data Science

• Python • OpenCV • PyTorch • Keras • Numpy • Pandas • Matplotlib

Database

• MySQL • SQLite • RealmDB • Mongo

Tools & General Knowledge

• C/C++ • BASH • Javascript • git • Jira • XCode • Jupyter Lab

Languages

• (Mother tongue) : Spanish • (Fluent) : English, French • (Basic) : Italian

Experience

Taller Technologies - Venmo (PayPal)

Remote - Contractor

iOS DEVELOPER

Sept. 2020 - Present

- Used Swift with MVVM and Coordinator patterns
- Improved business profiles visibility, discovery and marketing
- Worked on picture comparison automation using structural similarity in Python

IncluIT / SimTLIX

Córdoba, Argentina

SOFTWARE DEVELOPER

Jun. 2019 - Sept. 2020

- Developed macOS Firewall using Apple's Network Extension framework with Swift, Objective C and C++ - Pulse Secure (VPN client)
- Investigated real-time semantic segmentation, using Keras and Tensorflow Lite in Python and C++ - Avaya Workspace (telecommunications app)
- Worked on improvement and bugfixing for the macOS and iOS apps using Objective C - Avaya Workspace (telecommunications app)
- Developed new flows from scratch and refactored several modules using Swift - Jerárquicos (health insurance company)
- Refactored internal dependencies from static to dynamic frameworks with XCode - Telecom Personal (telecommunications company)
- Improved the auth library to allow user differentiations in Swift - Telecom Personal (telecommunications company)

Globant

Córdoba, Argentina

iOS DEVELOPER

Feb. 2019 - Jun. 2019

- Improved code style and quality fixing linter errors - Royal Caribbean (cruise company)

JCOR

Córdoba, Argentina

FULL STACK DEVELOPER

Jun. 2018 - Feb. 2019

- Developed car-pooling flows and refactored login and register modules using Swift, Java (BE) and MySQL database - Taaxii (transportation app)
- Improved regressions by writing automation tests using Selenium and Appium - Taaxii (transportation app)

AVH Club AR (Alexander von Humboldt Foundation Alumni Association in Argentina)

Córdoba, Argentina

FREELANCE WEB DEVELOPER

Jun. 2017 - Jun. 2018

- Developed and maintained the AVHCLUBAR website
 - Used PHP, MySQL, HTML, and CSS • Developed Admin page (News - Blog - Photos) • Automated mail campaigns using MailChimp

Extracurricular Activity

PyData

Córdoba, Argentina

VOLUNTEER

2018 and 2019 editions

- Helped the Committee on different organizational tasks

Conference on Computer Science (JCC)

Rosario, Argentina.

SCHOLAR

Oct. 25-27, 2017

- Received a scholarship to participate in the Conference in Computer Science at the National University of Rosario, Rosario, Argentina

Argentinian Programming Contest (TAP)

FaMAF, Córdoba, Argentina.

PARTICIPANT

2017

- Based on resolving a series of mathematical and algorithmic problems using programming skills
